JFCS and 24Hr HomeCare to Collaborate on In-Home Services Program

August 17, 2016 (Long Beach)— JFCS is pleased to announce the launch of atHome, a new collaboration between JFCS and 24Hr HomeCare, a premier non-medical home care company. This new program will quickly link those who need expert, reliable, and competitively-priced in-home assistance for themselves or for a family member with 24Hr HomeCare, a top-rated, reputable provider of non-medical in-home services.

“As an agency working with many older adults and people with temporary or permanent physical or cognitive challenges, we want to be able to quickly respond to their needs. By collaborating closely with 24Hr HomeCare, we will be able to set appointments for clients and their families or circles of support to assess their needs quickly and begin services right away. Our program will offer flexibility for clients so that they can utilize services for as short or as long a period of time as they need,” said Kathryn Miles, JFCS executive director. “Our staff will be in contact with the team at 24Hr HomeCare to consistently review the status of our clients and to address feedback or changes in their situation,” added Miles.

atHome will connect 24Hr HomeCare’s full range of in-home care services such as personal care, companionship, incontinence care, transportation services, light housekeeping, medication reminders, meal preparation, and Philips Lifeline Emergency Response System to JFCS’ array of services, including assessments, case management, money management, advance directives, counseling, support groups, and Friendly Visitor Program. “Our collaboration truly provides the majority of our clients with the care and attention they need to recover from a medical procedure at home, or to avoid a move to unfamiliar surroundings when they can no longer live at home safely without support. Through 24Hr HomeCare, there is always someone on duty, 24 hours a day, 7 days a week, should a problem arise. This level of attention will ease the minds of family members who may live far away and not be able to provide hands-on care,” noted Miles. “While we respect the desire for choice and have other referral options if our clients want to compare services and pricing, we have found that 24Hr HomeCare rises above all others because of their experienced, compassionate licensed caregivers.”

For more information about atHome, contact JFCS of Long Beach & West Orange County at (562) 427-7916 or visit www.jfcslongbeach.org.
